AWS Cloud Engineer | DevOps & Python Automation | AWS Certified | 2 Years 3 Months

PROFESSIONAL SUMMARY

AWS Cloud Engineer at TCS with 2 years 3 months of experience managing AWS infrastructure, automating workflows, and supporting Java-based production services. Promoted to System Engineer within one year. Won the TCS AI Challenge for a Bedrock-based automation saving 8 hours/week. Holds 4 AWS certifications including Solutions Architect Associate and AI Practitioner.

TECHNICAL SKILLS

- **Cloud:** AWS – EC2, S3, RDS, VPC, Lambda, IAM, CloudWatch, SNS, CloudFormation, Route 53, ELB
- **DevOps:** Jenkins, AWS CodePipeline, Docker, Git, Infrastructure as Code, CI/CD Automation
- **Programming:** Python, Shell Scripting, Java, SQL
- **GenAI & AI:** AWS Bedrock (Claude, Titan), Boto3, Prompt Engineering, Few-Shot Prompting, LLM API Integration
- **Systems & Backend:** Linux (RHEL/Ubuntu), Spring Boot, REST APIs, MySQL, PostgreSQL
- **Tools & Practices:** JIRA, Agile/Scrum, Incident Management, Production Support, Monitoring

PROFESSIONAL EXPERIENCE

System Engineer – AWS Cloud

May 2025 – Present

Tata Consultancy Services (TCS)

Pune, India

- Manage 15+ EC2 instances, RDS databases, S3 buckets, Lambda functions, and VPC configs across dev and prod for a team of 15 developers; resolve 40 incidents/month with avg resolution under 2 hours
- Built GenAI validation tool on AWS Bedrock (Claude) saving 8 hours/week of manual review; won the **TCS AI Challenge**
- Set up Jenkins and CodePipeline CI/CD for Spring Boot apps; cut deployment time from 2 hours to 15 minutes
- Configured CloudWatch alarms and SNS notifications for proactive monitoring of critical production services
- Provide L2/L3 support for Spring Boot, SQL, and REST API issues within Agile sprint cycles

Assistant System Engineer – Cloud & Backend Support

May 2024 – Apr 2025

Tata Consultancy Services (TCS)

Pune, India

- Automated 10+ recurring tasks using Python and Shell scripting, saving around 6 hours of manual effort per week
- Administered Linux (RHEL/Ubuntu) servers; configured IAM roles and security groups per least-privilege principles
- Handled L1/L2 production issues for Java Spring Boot services, SQL, and REST APIs; onboarded to AWS tooling and internal monitoring

KEY PROJECTS

GenAI Validation Automation

TCS AI Challenge Winner

- Built end-to-end validation workflow using AWS Bedrock (Claude), Lambda, Python, and S3; replaced a fully manual process and saved 8 hours/week
- Applied few-shot and chain-of-thought prompting with structured JSON outputs for consistent model responses
- Integrated S3 for data storage and Lambda for serverless execution, keeping infrastructure costs minimal

CI/CD Pipeline Automation – Spring Boot

- Built Jenkins and CodePipeline workflow for a Java Spring Boot app with build, test, deploy, and rollback on failure
- Cut deployment time from 2 hours to 15 minutes; configured dev and prod stages with approval gates before production releases

EDUCATION

Bachelor of Engineering – Computer Technology

Aug 2019 – Jun 2023

Kavikulguru Institute of Technology and Science, Ramtek

CGPA: 7.37 / 10

CERTIFICATIONS & AWARDS

Certs: AWS Solutions Architect Assoc. | AWS Developer Assoc. | AWS Cloud Practitioner | AWS AI Practitioner | GCP GenAI Leader

Awards: TCS AI Challenge Winner | TCS Innovation | TCS Performance Excellence | TCS Team Award | Excellent Learner
